OBJECTIVE:

I am a professional 3D Animator/ Generalist looking to gain full time employment within a creative company. I specialize in motion graphics, compositing, character animation and generally 'bringing things to life'.

RELEVANT EDUCATION

2002-2005

Middlesex University, London
Bachelor of Arts in Visual Communication Design-Illustration

RELEVANT WORK EXPERIENCE

October 2010– Current Role

Vidify: GFX Specialist

Working on behalf of Vidify- the UK Market leader in online video production for businesses across the UK- I produce all of the 3D animations and motion graphics for the premium online advertising products for Yell.com customers.

Please follow the below links for recent examples of my work:

Character Animation:

3D Motion Tracking and Compositing:

<http://www.vidify.co.uk/index.html?video=3>

February 2010

Venom Design: 3D Animator

As part of a freelance assignment, I produced several photo realistic 3D models of Seadoo Jet-Skis:

2009– Various freelance projects

Quadratura: 3D Character Animation

I created an animation sequence for the public art event 'The Animation Decathlon', which was projected onto the Kensington & Chelsea Town Hall:

<http://www.youtube.com/watch?v=L6hi5ksuHqQ>

<http://www.quadratura.info/projects/animation-decathlon/>

I was also commissioned to generate ten highly detailed 3D models of vegetables for Quadratura, in order to create an interactive and immersive audio/video art installation at 'The Big Fish Café' (a vegan establishment owned by Heather Mills) in Hove, Brighton.

Available upon request

FURTHER WORK EXPERIENCE

2007-2008

The Digital Holding: 3D Character Animator

Working alongside the Creative Director I produced a six and a half minute HD quality Road Safety DVD for TFL.

Creating 3D characters which were integrated into live footage.

Story boarding, animation pipeline design and break-down.

Rigging 3D characters to talk and act alongside real people using HDRI lighting, live film tracking and compositing.

2005-2006

JJAADD Academy: Interior design Lightwave Tutor

Teaching Lightwave 3D from beginner to advanced level.

I taught students how to visualise interior space and to use Lightwave alongside their research in order to create 3D interior spaces.

Producing step-by- step DVD tutorials and literature to assist students with lessons.

COMPUTER SKILLS

I have advanced computer skills in the following packages:

Lightwave 10

Adobe Photoshop CS5

After Effects CS5

Final Cut

Illustrator

Premiere

Z Brush/ Mudbox

AutoCAD

I am also a competent user of Microsoft Word, Excel, Outlook and Publisher and I am currently developing my Adobe Dreamweaver skills.

INTERESTS/ ACTIVITIES/ HOBBIES

I enjoy visiting the cinema, and I am particularly interested in sci-fi, classic and horror cinema.

I like travel, music, attending gigs, socializing, cooking, and exploring London's hidden gems.

I am also a keen swimmer, and I often cycle around the Capital.
